# Aviation Abrasives

Premium Quality

- Aircraft Manufacturing
- Aircraft Repainting and Repair
- Interior Fabrication - including wood, metal and high lacquer finishes
- Composite Fabrication
- Engine Manufacturing and Rebuilding

- Increased cutting effectivity
- Improved finish
- Reduced labor times
- Proven cost savings

**Blue Kassteel® Discs** - Full resin bond, aluminum oxide, reasonably priced, performance based sanding discs provides a fast cut rate and reduced loading. **BETTER**

**Sungold® Premium Plus TMDiscs** - Full resin bond, premium aluminum oxide with a high quality, durable and flexible backed disc. The extremely strong and flexible backing works great when sanding contour surfaces. **BEST**

**Sungold® Eclipse® Film Discs** - Full Resin Bond, Premium Aluminum Oxide. Film backing provides a smooth platform resulting in the most consistent finish. **BETTER THAN BEST**

- ✓ All discs can be made with dust extraction holes, to fit any system on the market
- ✓ NEW: Multi-Hole disc systems for maximum dust extraction

- ✓ Full range of disc sizes and types from small runs up to large volumes with extremely fast turn-around
- ✓ Ability to make any size custom belt from 1/8" wide up to 67" wide, consistently within five working days
